

NewsWasher[®]

The filter between you and Internet that
makes already read news disappear

For Me and a Smarter Planet

newswasher.com

What is NewsWasher?

- The Android app for you that is tired of reading yesterdays news
- You surf via a web server on your Android device, it removes already read news articles
- Use your favorite web browser

How does a cleaned page look like compared with the original?

Original newspaper page

How do I clean the newspaper page?

- Click on the [Clean] button

The screenshot shows the top section of the Nyheter website. At the top left, there are two blue links: [\[Clean\]](#) and [\[Reload\]](#). A blue arrow points from the text 'Click on the [Clean] button' to the [\[Clean\]](#) link. In the center, there is a small square icon above the text 'Nyheter'. At the top right, there is a purple link: [\[Original\]](#). Below these elements is a grey horizontal bar containing the date 'ONSDAG 11 JAN 2012' on the left and 'KUNDSERVICE' on the right. Below the grey bar, there are three vertical dashed lines. To the right of these lines, there is a weather widget for Stockholm showing 'JUST NU 5°' with a cloud icon and 'I MORGON 4°' with a rain cloud icon. Below the weather widget is a search bar with the text 'Sök DN.se' and a magnifying glass icon.

Screenshots

The screenshot shows the NewsWasher application splash screen. At the top, the status bar indicates 3G connectivity, signal strength, and the time 6:33 PM. The application title is "NewsWasher". Below the title is a large, stylized logo for "News Washer" with a metallic, textured background. Below the logo, the text reads: "NewsWasher ® 1.0.0", "Copyright © 2011-2012", "Henrik Kjell, SkapandeData", and "All Rights Reserved". The main content area contains the following text: "The filter between you and Internet that makes already read news disappear." and "This is a free version that clears saved URL links when the web server is restarted, but there is no limit on how long time you have it up and running." At the bottom, it says "See also:" followed by the URL <http://newswasher.com/>.
